

Fit METRIQS

Smart Health Screening for Fitness Centers

Know Your Body. Own Your Progress.

FitMetriQs helps fitness centers deliver connected health screening and body assessments to support healthier lifestyles and better member experiences.

WHY FitMetriQs?

- Guided self-service health screening
- Automatic digital health records
- Track health progress over time
- Connected platform for fitness centers

SUPPORTING DIFFERENT NEEDS

Fitness Centers

Help members understand their body condition before starting or adjusting their training program.

Personal Trainers

Use health measurements to support personalized coaching and monitor client progress over time.

Corporate Wellness

Provide regular employee health screening as part of workplace wellness initiatives.

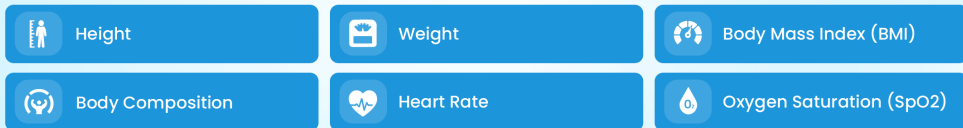

Sports Clubs

Monitor athletes' physical condition and support long-term performance improvement.

WHAT CAN MEMBERS CHECK?

FitMetriQs supports a variety of health and wellness measures, including:

Available measurements can be customized based on your operational needs.

MOBILE APP

Your Health Journey Starts Here

Every screening result is automatically saved to the member's account, making it easy to track progress anytime and anywhere.

Features App

- Secure account and profile management
- Complete health measurement history
- Health trend visualization
- Easy-to-read health reports
- Download and share reports in PDF
- Health reminders and notifications
- Automatic cloud synchronization

DASHBOARD

Manage Everything in One Place

Designed for fitness center owners and administrators, the FitMetriQs' Dashboard centralizes device monitoring, operational management, and health screening insights in MediQa platform.

Features Dashboard

- Real-time device monitoring
- Remote device management
- Member management
- Health analytics and statistics
- Asset and maintenance monitoring
- Report generation
- Screening workflow configuration
- Third-party platform integration

FLEXIBLE & CUSTOMIZABLE PLATFORM

Designed to Fit Your Business

Every fitness center has its own identity and operational workflow. FitMetriQs can be customized to match your brand and business requirements.

Customization Options

- Your logo and brand identity
- Customized mobile application
- Personalized dashboard
- Organization-specific reports
- Flexible screening workflow
- Health parameters based on your services
- User roles and access management

Smart Health Screening
for Better Patient Care

The Smarter Way to Know Your Health

FitMetriQs is an integrated health screening solution with guided measurements, automatic digital records, and connected platforms for more efficient healthcare workflows.

WHY FitMetriQs?

Better Experience for Patients

Simple step-by-step guidance makes every screening easy to follow.

More Efficient Workflow

Reduce manual recording and streamline routine examinations.

Connected Health Records

Measurement results are securely stored and accessible anytime.

Data You Can Trust

Health information is protected with secure user authentication and cloud synchronization.

WHAT CAN IT MEASURE?

FitMetriQs supports multiple health screening parameters such as:

Height

Weight

Body Composition

Body Temperature

Blood Pressure

Heart Rate

Oxygen Saturation

Body Mass Index

Measurement configurations can be customized according to hospital requirements.

MOBILE APP

Your Health, Always Within Reach

Patients can access their health information anytime through the FitMetriQs App.

DASHBOARD

Centralized Management for Healthcare Facilities

Designed for hospital administrators and operational teams, the FitMetriQs Dashboard centralizes device monitoring, health screening management, and system oversight in MediQa platform.

Features App

Secure login and personal profile

Complete health screening history

Health trend visualization

Easy-to-read health reports

PDF report download and sharing

Health reminders and notifications

Automatic cloud synchronization

Features Dashboard

Real-time device monitoring

Remote device management

User and organization management

Health screening analytics

Asset and maintenance monitoring

Report generation

Screening protocol configuration

Integration with HIS, EMR, HRIS, and third-party systems

Hear Better Work Smarter Review Easier

Smart Digital Stethoscope

StetoQ is a digital attachment for conventional stethoscopes that enables recording, replaying, visualizing, and sharing auscultation audio through the StetoQ App.

MEDIQA

Why StetoQ?

-  Record and replay auscultation audio digitally
-  Organize examination recordings more efficiently
-  Share recordings for clinical discussion and collaboration
-  Support digital auscultation workflows
-  Continue using familiar auscultation methods

Supporting Different Needs

Education

Enhance medical learning with replayable auscultation recordings for teaching, demonstrations, and case discussions.

Diagnostic Support

Assist examination documentation, audio review, and clinical evaluation through digital auscultation recordings.

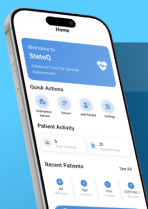

Research

Support research activities with structured audio recordings and organized examination data.

Telemedicine

Enable remote audio sharing and connected collaboration across different locations.

StetoQ App

Record, store, replay, visualize, and share auscultation recordings in one connected application.

StetoQ Dashboard

Review examination recordings with waveform visualization and recording analysis to support clinical evaluation.

Key Features

-  Audio recording & playback
-  Auscultation waveform visualization
-  Bluetooth Low Energy (BLE)
-  Digital audio sharing
-  Adjustable amplification
-  Noise suppression
-  Listening modes: Wide, Heart, and Lung
-  Integrated with the StetoQ Platform
-  AI Clinical Support with Audio Analysis and Murmur Detection

Cardiopulmonary
Examination Trainer

The First Step to Saving Lives Starts Here

BeatQ is a cardiopulmonary auscultation training platform that combines an anatomically designed manikin, interactive learning application, and centralized dashboard for standardized healthcare education and research.

Why BeatQ?

Hands-on auscultation practice

Consistent and repeatable training

Integrated learning and assessment

Supports healthcare education and research

Supporting Different Needs

Medical Education

Support clinical skills training with realistic auscultation simulation and structured learning.

Research

Enable standardized clinical simulations and cardiopulmonary research.

Healthcare Educators

Manage learning sessions, assessments, and learner performance on one platform.

Educational Institutions

Standardize clinical training and monitor competency development through learning analytics.

Key Features

 Multi-Point Auscultation Training

 Heart & Lung Sound Simulation

 Pulse Simulation

 50+ Clinical Sounds

 Integrated Learning Platform

 Learning Analytics Dashboard

 Quiz & Assessment Mode

 Application Based Control

 Adult Torso Manikin

BeatQ Application

An integrated learning platform where learners can access learning materials, practice auscultation skills, complete assessments, and track their learning progress.

BeatQ Dashboard

A centralized platform for educators to manage learning content, monitor learner progress, review assessments, and analyze performance.

Smart Blood Pressure Monitor

Track Blood Pressure Trend

A digital blood pressure monitor with Bluetooth connectivity and FitMetriQs App integration for routine measurement, digital records, and health tracking.

WHY SMART BPM?

Simple and reliable blood pressure measurement

Bluetooth connectivity with the MediQa App

Automatic digital record storage and tracking

Compact and rechargeable for everyday use

SUPPORTING DIFFERENT NEEDS

Healthcare Facilities

Routine blood pressure measurement for hospitals, clinics, and primary care.

Self Monitoring

Track blood pressure over time.

Corporate Wellness

Employee health screening programs.

Community Health Programs

Community-based health screening and outreach.

Key Features

Designed for convenient and connected blood pressure measurement.

Digital blood pressure and pulse measurement

Bluetooth Low Energy (BLE) connectivity

Device memory for up to 2 users × 99 records

Measurement history in the MediQa App

Atrial Fibrillation (AFib) indicator

Body movement detection

Cuff placement indicator

Hypertension indicator

Portable and rechargeable

USB Type-C charging

Applied on FitMetriQs

Keep all health screening records in one place for easier review, progress tracking, and report sharing.

Features

- Health trend visualization
- Progress tracking
- Health measurement history
- Bluetooth synchronization
- PDF report export

Roastrix 400 PRO

Roasting never been this easy!

Qohua
Indonesia

Smart Coffee Roaster dengan Mode
Manual & Otomatis untuk Hasil Roasting yang **Praktis**
dan **Konsisten**

Roastrix400 PRO adalah smart coffee roaster berkapasitas **400 gram** yang membantu menghasilkan roasting lebih konsisten dengan pilihan **Manual Mode** dan **Auto Mode**. Cocok untuk roaster profesional, micro roastery, coffee shops, workshop, home roasters, maupun pemula.

by Qimtronics

Fitur Utama:

Triple Temperature Monitoring

Memantau suhu drum, suhu biji kopi, dan kondisi airflow secara real-time.

Manual Mode

Mengatur suhu, putaran drum, dan airflow sesuai profil roasting yang diinginkan.

Auto Mode (Save Profile)

Simpan profil roasting dan ulangi hasil yang sama hanya dengan satu klik.

Spesifikasi:

Heat transfer: Drum

Heater: Electric hot-air convection system

Power: 1000 Watt

Voltage: 110 - 240V

Dimensi: 32cm x 50cm x 48cm

Max Roasting Quantity: 400g

Best Roasting Quantity: 100-300g

LCD: 7" Touchscreen

Connectivity:

- BLE → Qohua Apps
- USB-C → Artisan (via Qohua Apps)

Komponen Utama:

Mobile Apps

Cooling Bean Tray

Interface Display

Knob Encoder

Funnel (Inlet Biji Kopi)

Smoke Filter

Bean Monitoring

Chaff Container

POURFECT60

Brew it with your taste!

Rotating
Water Dripper

Scale
Meter

Display
Interface

Water
Tank

Pour-Over perfection

Parameter penyeduhan sesuai keinginan pengguna

Quality by Quantity

Penyeduhan kopi dapat dihidangkan hingga 4 orang

Pourfect60 App

Fitur penyeduhan melalui smartphone

Pour Over Coffee Machine dengan Mode Otomatis yang Memudahkan Siapa Saja Menyeduh Kopi ala Barista, Ideal untuk Pengguna Rumah maupun Kafe

Menyeduh kopi manual V60 butuh keterampilan dan konsistensi, sehingga banyak orang kesulitan mendapatkan rasa stabil layaknya seduhan barista. Pourfect60, mesin manual brewing otomatis, meniru teknik hand drip secara presisi untuk menghasilkan seduhan konsisten tanpa menghilangkan karakter manual brew.

Untuk rumah, alat ini memudahkan siapa pun menikmati kopi ala barista sekaligus menjadi sarana belajar yang menyenangkan. Untuk kafe, bisa jadi daya tarik bagi pecinta manual brew, memudahkan penyeduhan sambil menyiapkan menu lain, dan mendukung eksplorasi racikan baru tanpa mengganggu operasional.

Fitur Utama:

- Material food grade memastikan keamanan dan higienitas
- Kapasitas penyimpanan air 1.8 liter
- Volume penyeduhan kopi 250 ml - 1 liter
- **Full control:** memungkinkan pengguna untuk mengatur suhu, waktu dan sesi penyeduhan, dan volume air penyeduhan sesuai dengan resep yang diinginkan, memungkinkan kontrol yang lebih baik terhadap proses penyeduhan (*Manual Mode*).
- **Fitur save profile:** dapat mengulangi hasil penyeduhan dengan satu klik, sehingga mempermudah proses penyeduhan (*Auto Mode*).

Spesifikasi:

Heater: PTC

Power: 600 Watt

Voltage: 160 - 230 V

Dimensi: 33cm x 15cm x 36cm

Berat Produk: 3,5 - 5 Kg

LCD: 4.3" Touchscreen

Connectivity:

- USB-C → Artisan Apps
- BLE → Pourfect Apps

Integrated EV Charging Solution

FASTER. CLOSER. EV FRIENDLY.

Providing a seamless and integrated electric vehicle charging experience through a comprehensive digital platform.

QUICCAS is an integrated EV charging platform that enables you to **Find**, **Reserve**, **Charge**, and **Pay** effortlessly all in one app

QUICCAS GIVES YOU THE CONTROL YOU NEED

1

Quick Start

Plug in and charge freely.

No limits, no setup, just start and stop whenever you're ready.

2

Battery Care

Charge to your ideal level.

Set a target battery percentage and help maintain long-term battery health.

3

Set Your Budget

Stay within your budget.

Set how much you want to spend and let the system automatically manage the session.

4

Set Your Time

Charge on your schedule.

Set your preferred charging duration, perfect for quick stops or busy days.

KEY FEATURES

Find Nearby Chargers

Find available charging stations quickly and efficiently.

Reservation

Reserve charging slots in advance for a more convenient charging experience.

Smart Charging

Manage your charging sessions with greater flexibility and control.

Digital Payment

Secure and integrated payment system for every charging transaction.
